

About StoxPlus and StoxResearch

StoxPlus, an associate company of Nikkei Inc. and Quick Corp., is proud of being a leading financial and business information corporation in Vietnam. We provide the most comprehensive ready-to-use Financial Information Platform, Business Information Portal, Standard and Customizable Research Reports and value added services via various devices such as PCs, websites and mobile devices to help clients analyzing and making informed decisions. Our clients include securities firms, fund managers, banks, insurance companies, financial and investment institutions, corporate management, import and export traders, NGOs and individual investors, both locally and internationally.

StoxPlus has been a pioneer in information services to financial institutions in Vietnam since 2009. Jointly with Nikkei Inc. and QUICK Corp. from Japan, StoxPlus is also the first to develop an in-house built platform for thousands of financial institutions and sophisticated investors.

StoxPlus Financial Information Division (“FiinForm”) has been established since 2009, with FiinPro Platform as the key product. FiinPro Platform is an indispensable tool for a deep understanding about Vietnam financial market. The platform covers the most complete data and information on the market in both English and Vietnamese, including the most comprehensive information on 800+ listed and 1200+ unlisted public companies. The platform enables users to obtain the most accurate, timely and complete 24/7 financial information on a variety of vehicles such as PCs, mobile devices, tablets and websites.

StoxPlus Business Information Division (“BiinForm”) is Vietnam’s pioneer provider of business information via portal-based services build on an aggregated database of almost all companies and sectors. Business information includes premium company and industry reports, comprehensive analysis and local insights to clients at quality standards of international prestigious advisory firms. Biinform provides insights to help client in making informed decision and stay ahead of the competitive edge.
